

## SPRING 2016 OPENS WITH THE THIRD EDITION OF FAMAART

### THE SHOWCASE FOR ITALIAN AND EUROPEAN EXCELLENCE IN THE SECTOR OF FRAMES AND GRAPHIC ART

AT BOLOGNAFIERE FROM 4<sup>TH</sup> - 6<sup>TH</sup> MARCH

**From the 4<sup>th</sup> to the 6<sup>th</sup> of March 2016 Famaart** is set to return to the Bologna Exhibition Centre. Europe's sole event for the Frame sector, Famaart is organized by **BolognaFiere** in collaboration with **F.A.M.A.** Europe, the European association for frame producers. Following the success of the event's second edition in 2015, this year's exhibition for frames and graphic art will offer a full immersion in creativity, technology, innovation, design and high quality products. Over three days of networking the very best of European made products will be showcased.

In addition to the presence of Italy's best and most established companies in the sector, the event will have an increasingly international emphasis with buyers from over 40 countries. The fair event is reserved for professional operators and will involve frame producers, manufacturers of frame components, machines and equipment for cutting and assembly, accessories for fine arts and graphic arts and specialized conservation and exhibition equipment. Famaart represents a complete showcase that proposes all of the innovations of the sector with a particular focus on design, high quality products and the latest technologies for production.

There has been a markedly positive response from participants, who have already reserved a greater space than that of last year's event, while the 2016 edition will include the participation of new companies and new sectors, such as that of digital photo printing and the related accessories.
